

Instalación

La instalación de un router con Vyos, es bastante sencilla, tan solo hay que arrancar la imagen ISO que se descarga desde la web de [Vyos](#). Una vez descargada, arrancamos desde la ISO y el sistema presentará la pantalla de login, usando como user vyos con password vyos nos aparecerá el prompt

```
The programs included with the Debian GNU/Linux system are free software; the exact
distribution terms for each program are described in the individual files in
/usr/share/doc/*/copyright.
Debian GNU/Linux comes with ABSOLUTELY NO WARRANTY, to the extent
permitted by applicable law.
vyos@vyos: ~$
```

desde aquí procederemos a instalarlo en el disco de nuestra máquina con el comando *install image*

```
vyos@vyos: ~$ install image
Welcome to the VyOS install program.  This script will walk you through the process of
installing the VyOS image to a local hard drive.
Would you like to continue? (Yes/No) [Yes]: Yes Probing drives: OK
Looking for pre-existing RAID groups...none found.
The VyOS image will require a minimum 2000MB root.
Would you like me to try to partition a drive automatically
or would you rather partition it manually with parted? If
you have already setup your partitions, you may skip this step
Partition ( Auto/Parted/Skip) [ Auto]:
I found the following drives on your system:
sda      94294MB
Install the image on? [sda]:
This will destroy all data on /dev/sda.
Continue? (Yes/No) [No]: Yes
How big of a root partition should I create? (2000MB - 4294MB) [ 4294] MB:
Creating filesystem on /dev/sda1: OK
Done!
Copying /opt/vyatta/etc/config.boot.default to sda. Enter password for administrator account
Enter password for user 'vyos':
Retype password for user 'vyos':
```

```
I need to install the GRUB boot loader.  
I found the following drives on your system:  
sda    94294MB  
Which drive should GRUB modify the boot partition on? [sda]:  
Setting up grub: OK  
Done!  
vyos@vyos: ~$
```

Una vez instalado procederemos a reiniciar con *reboot*
